This CD contains the raw data used in the analyses for the PhD: Environmental Correlates of wild bee assemblages in pastoral landscapes in Ireland (Hymenoptera, Apidae), submitted June 2013 to University of Limerick by Veronica Santorum Crespo, in an excel spreadsheet.

The Excel spreadsheet contains 10 sheets of information. The sheet 'metadata' gives an overview of the project. The remaining sheets contain bee and environmental data, a summary of which is provided in the sheet 'key to variables' . Further details are provided in the text of the thesis.

Anyone who uses this data should credit Veronica Santorum Crespo and the Agbiota project.
